

Hi! I'm Ella Alter and I am celebrating my Bat Mitzvah this coming April. I love to do gymnastics and art. I also love helping people. For my Bat Mitzvah, I am collecting items to make care packages for women who are diagnosed with ovarian and breast cancer. I hope to create and deliver care packages for women in treatment.

I first heard about Sharsheret through my dad who works as a Gynecologic Oncologist. This is a fancy way of saying that my dad is a doctor that treats women with ovarian, uterine, and cervical cancers. My dad helps women fight cancer and Sharsheret takes care of the women even further. I admire that Sharsheret helps not only the woman with cancer, but also supports her family and children. Please consider donating items from my Amazon wish list to help create care packages for women in treatment.

Thank you for your support and participation in this special project for my Bat Mitzvah.
