

Hi! I am Jocelyn Cohen, I am almost 12, and I live in Illinois. In my free time I enjoy hanging out with friends, playing with my dog, doing cheer, and diving. My favorite subject in school is science and my favorite part of school is choir and being with my friends!

Here is why I chose Sharsheret for my project: I chose Sharsheret for my bat mitzvah project because helping people with cancer and their families is really important to me. One of the reasons that it is important to me is that my grandpa had cancer and it just got so real how people struggle with it. It is also very unfair when it comes upon a family who doesn't have the money to pay for treatment. Also, when they need to be with their kids at home because there isn't someone else around. This is why I chose Sharsheret!
